Restek Has Added ISO Guide 34 and 17025 Accreditations

We Now Offer a Full Line of Certified Reference Materials!

Restek is proud to announce that our reference standard manufacturing and QA testing labs in Bellefonte, PA, have earned ISO Guide 34 and 17025 accreditations through A2LA. More than ever, you can rely on Restek for all of your reference standards, and now, you can also experience the advantages of our ISO accreditations:

- Satisfy regulatory requirements by sourcing CRMs from an accredited supplier.
- Benefit from the exceptional product quality and customer service needed to meet strict ISO 9001, Guide 34, and 17025 guidelines.
- Get the same reliability and documentation with custom-formulated solutions as you do with stock standards—both fall under Restek's accreditation.
- Eliminate POs by ordering primary- and secondary-source reference standards, GC and LC columns, sample prep supplies, and accessories from one vendor.

We invite you to visit www.restek.com/iso to learn more about our ISO quality credentials and view our certificates (including scopes of accreditation).

If you have any questions or would like more information, feel free to contact me.

Jason E. Fisher
Product Marketing Manager, Reference Standards
